

## The Shirt Waist and Skirt Season is Now in Full Sway

And so our Shirt Waist stock is more interesting than ever. Plenty of new and attractive models to select from, whether you lean to the dressy Blouse, the Sport Waist in bright colors, the more simple model, or even the new Middy. When you realize how important a Waist is to a woman's summer outfit, you will be sure to buy several before the assortment of sizes is broken.

### Waists at \$2.25

In this collection, you have choice from models you will not be able to duplicate in any other store in this city. Among these Waists are Sport Striped Washable Silk Waists, Lingerie and Batiste; and, too, there are some of the new Colored Waists. Trimmings vary—a number of the models are trimmed with lace, others are after the type of the frill Blouse. Come prepared to buy several, for you will surely do so when you see them.

Waists at \$1.00 and \$1.25

Made of Voile, Batiste, the new Cross-Barred Materials, and other fabrics. Several styles to choose from, most all the styles patterned after waists at several times the cost.

## And Now Come the New Striped Skirts Made of Sport Suitings

Fashion's Whim Is Being Expressed in These Bold, Striking Effects

The materials employed are Linene, Heavy Cotton Suitings, Poplin, etc. The colors are White Background with Black, Brown, Dark Blue, Rose, and Light Blue Stripes. Then, too, there are the All White Skirts, made of the season's latest materials, and trimmed with pearl buttons, patch pockets, etc. These new Skirts may be had in a wide range of prices, from \$1.25 to \$6.98.

## Special for Saturday

**I**N your own business you keep your mind open. You quickly revise your opinions and decisions in the light of new facts.

Are you just as open and up-to-date on this subject of ready-to-wear clothing?

You can remember the days when careful dressers all wore custom made shoes—how many of your friends go to that trouble to-day?

Perhaps the saving in money is a small matter to you—but how about the saving in time and bother?

In a ready-to-wear suit, you can see the effect of the pattern in the completed suit, you can see whether the shade is becoming to you, and whether the coat, vest and trousers are going to fit you—all before you purchase. You say, "I'll take this one!" and the suit is waiting for you when you reach home at night.

Isn't it worth looking into?
